

THE ETERNAL WORD (TEW) TO JERUSALEM

I got assigned from Lord Jesus to correct the mistakes of the copies of the Original Text. The results were **even to me** so difficult to believe received and made in the guidance of the Lord, that I very well understand the doubts of my reader towards the work. That is why this short summary of the guidance experienced by this research of THE ETERNAL WORD.

1999 I get The Bible Code (by Michael Drosnin). It generates an idea: **How I could find the faultless Original text?**

1. The work (A) begins

31.07.2005 **The Holy Spirit urges me to study, if Ps 12:6 might be divisible by number 7?**

Although according to Theo Mathematics it ought to be, it isn't either in Hebrew or in Greek. Some word is missing.

27.04.2007 when visiting in **Pori** (a town 300 km from us) I find a book called **Number in Scripture** from a brother's book-case. It shows that **Ps 12:6 is divisible by 7 with the missing 'logia'-word (see TEW p.5 and 6).**

04.10.2008 **I get a computer for the research-work as a prayer-answer**, but I don't have the computer-program for the work. It was the next prayer-request.

29.09.2009 the research (A) made with the help of calculator is completed.

27.10 I tell of my find in a Bible-study, but God uses the brothers to claim that there is nothing special in the discovery. At the same time one of them promises to make **the computer-program** for the 'session' 2-weeks later in order to show his claim true.

07.11 **the Holy Spirit guides me to seek for Simeon from the blessing of Moses Deut 33. The answer is found from the verse 33:6 (see TEW p. 14). Moses blessed also Simeon. The mathematical witness is perfect! Without this guidance I would have finished the research-work there.**

10.11. three days later **as a prayer- answer I get the computer-program** and I must start the work again from the beginning.

2. The real work (B) starts 14.12.2009.

I don't find any implements or persons to help. The only possibility was to put my trust in the promises of the Bible like Jn 16:13 and 2.Tim 2:7. **In the work the Holy Spirit guides step by step (see TEW p. 5/9).**

21.11.2012 the research (B) is completed and I put it into a memory chip. Three days later both the **computer and tape recorder** with which I had listened music when working **break up**.

01.01 – 03.09.2013 I work by the final correction.

04.09.2013 I put the research in Finnish and English into the internet.

3. THE ETERNAL WORD TO JERUSALEM

a. The research to find the faultless Original Text was completed. I had tried to find an inspector (2.Cor 13:1) for the work from Finland, but in vain. Now I didn't know how to advance. Even in the same day (**Wednesday 4.9.**) a sister as an answer to prayers urges me to **go to the Feast of Tabernacles to Jerusalem**. I might namely meet there some messianic Jews, to whom Theo Mathematics is not unknown. She mentions specially **Dr. David H Stern** by name.

b. **Thursday morning 5.9** dawns. In my every morning Bible-study I was advancing in **Is 29**. **For the first time in the Bible just in that chapter in the verses 11 and 18 there is talk of the sealed book (Dan 12:4). It is the matter that my work handles.** About 14 years earlier by the 18th verse I wrought from The Bible Code the following words: **"He recognized the words, they will be computerized, his report they heard on this day, the secrets, the magical words of the book" (p.122).** Immediately under this quotation I have at the same time written from the page 95 the words: **"It was made by computer"**.

c. As I wonder that timing, **I feel** that the first part of the work (15 pages) **must quickly** be printed. Immediately I drive to a press and order 30 copies in Finnish and 70 in English.

d. **The following week** on **Tuesday evening 10.9** I fetch the copies. At home I and my wife seek for **the will of the Lord** concerning to my journey to Jerusalem by casting a lot. The answer is **YES!** (See a).

e. On **Wednesday 11.9** I feel that I must drive to Helsinki (125 km) to deliver the fresh copies of the work to some who had helped me in the work. One of them tells that **Tom Hess has conference in Jerusalem** just before the Feast of Tabernacles. I forget the matter.

f. **Thursday morning 12.9** I find a direct flight at 19.10 at the same day to Tel Aviv. The ticket is arranged at 14.30 but I have no idea where to overnight and how to use those 11-days, except to meet David H Stern.

g. As I board the aircraft, just at the same time is going in to the plain some friends of mine, who live in Jerusalem. They promise to take me to a place, where I can overnight four nights. I am at my destination on **Friday morning 13.9 at 02.00**.

h. In the same flight was for the first time in her life going to Jerusalem the sister, who 14 years earlier had left The Bible Code to me to be studied. It was the starting point of my research work. I was astonished to meet her now!

i. Saturday 14.9 was Yom Kippur and all the nation stops. I meet a lady, who starts to speak of the conference of Tom Hess (see e.). Then I know that I must get there as soon as possible.

j. On Sunday morning 15.9 I give one copy to Tom and about 20 other representatives from different parts of the world.

k. On the way to Old City in the buss number 7 an old woman blesses me.

l. During the following week I meet tens messianic Jews and to many of them I get order to give the research work.

m. On Wednesday 18, I was lead to a 5th floor room 509, which was empty.

n. The last day Monday 23.9 dawns in Jerusalem. I go to the computer-room of Hostel Jerusalem. When my internet mail at last opens, I have only some seconds left in the card. To the monitor appears the name David H Stern. Then the computer shuts up. Surprised I go to the dining-room and take breakfast. Then I notice by a window a man who was reading the Bible. For some reason I feel, that I must at once go to him. I leave the breakfast, go and ask: "Do you love Bible?" Yes I do, and I begin every day by it, he answers. Then he for some reason opens the front-page, and I see the inscription of David H Stern there. Surprised I ask: "Are you David Stern?" No, but he is my friend and we go to the same congregation. I introduce myself and explain that I am looking for help, somebody, who could check my research work. Then I give a copy to him, and shortly explain the work. After that we try to have contact with David with the help of his computer, but in vain. As I am ready to leave back to my breakfast he tells that he knows a person, who might be even more suitable for the work than David. The name is Joseph Sulam. He gives also Joseph's tel. number. I write it down. After breakfast I try to call up Joseph, but no answer. From my heart I pray: 'Dear Lord! This is the last day and my flight leaves at midnight. Please help!' Then I remember that I had forgotten my Bible-study that morning. I go to the TV-room and open the Bible. The first verse that hits my eyes is Is 59:1. "Behold, the Lord's hand is not shortened, that it cannot save; nor His ear heavy, that it cannot hear". I call up Joseph yet once and leave the hostel for home journey. When passing a crowded market-lane I drop in there. Then from behind get caught, and the voice of a lady asks in Finnish: "Are you Kimmo Juutilainen? She had seen me from afar, and felt compelled to meet me. We had met in some meetings. I explain to her the reason of my trip and everything I had experienced that morning. When I tell that the brother who read the Bible mentioned a person who might help, she asked: "Was it Joseph Sulam? Surprised I check the name: Yes it was! Then she goes on and tells that she knows a person, who has Joseph's mobile-number. She takes her phone and phones to Finland. After a moment we have Joseph's mobil-number. We move to a silent place and phone to Joseph. When I explain my need to meet him, he tells, that he is living 20 km from Jerusalem. However for some reason he was compelled to go to

his office in Jerusalem. As my friend writes down the location of the office I see on the paper **5th floor room 509**. I knew the place (**see I**). We were only 500 m away from it. After half an hour **I was able to deliver the research-work to him!**

Can it be that through this complete guidance and those eight fiancée souls the **Holy Spirit** wanted to sign this research-work 'THE ETERNAL WORD' as **HIS OWN?!**
